Units from SVQ Social Services and Healthcare at SCQF level 9 and SVQ Care Services Leadership and Management at SCQF level 10 that we accept towards meeting the supervisory requirement in adult care services

We accept a combination of the following units as meeting the supervisory requirement for supervisors in care at home, housing support and care home services for adults.

We do not accept other units from these qualifications that are not on the list.*

We have highlighted in blue those units we have identified as most closely matching the skills, knowledge and values needed for effective supervision.

You should discuss with your employer and training provider which would be the best units to develop your supervision skills, match with your current job role and support your career development.

We have listed the SQA unit code, the Sector Skills Council (SSC) code, the title, the SCQF level and the SCQF credit for each unit. We have also noted which are mandatory (M) and which are optional (O) within the qualifications. You can use the SSC code to find the relevant National Occupational Standard (NOS) at the NOS Navigator in the Learning Zone on our website.

*Please note this applies to the current versions of these qualifications. We continue to accept units we have accepted before from previous versions.

SVQ Social Services and Healthcare at SCQF level 9
