**Looking for ways to develop and refresh
your skills?**

**Find out more about our free learning
resources and smartphone apps**

learn.sssc.uk.com

You can use our free and easy to use resources from a computer, tablet (like an iPad) or smartphone. Here is a selection of resources that we recommend for people working in care at home services.

Safe administration of medication (SafeMed)

Web, iPhone, Android

Use in your day-to-day work or expand your learning by undertaking the online learning modules.

Adult support and protection iPhone, iPad, Android

This app has sections on legislation, what you should do if you have concerns and FAQs.

Understanding dementia

iPad, Android

This app will help increase your confidence when working with people with dementia and help you improve their quality of life.

SVQ support apps

iPad, Android

These four apps provide knowledge relating to the mandatory units of the social services and healthcare SVQs.

Jargon and acronym buster (JAB)

Web

This reference tool can help explain terms and abbreviations often used in social services.
